

POLICY MANUAL

QUALITY AND ENVIRONMENTAL POLICY

Duvine Ltd (Duvine) operates an integrated ISO 9001/ISO 14001 Quality and Environmental management system. The scope of operation covers 'The Design, Manufacture, Installation and Service of Power Supply Equipment and related electronic products.'

To enable Duvine to develop its business the management system has been developed to support the business by improving its operational performance and, at the same time, seeking to reduce its environmental impact.

Duvine is committed to compliance with all applicable quality, legal, regulatory and interested party requirements, and to the protection of the environment and avoiding pollution from its activities. Duvine seeks to apply best practice at all times, and to keep the business and its staff skills relevant and current.

The management system provides a framework for identifying improvement objectives and targets. Continual improvement is demonstrated through a robust programme which enables objectives to be achieved.
